Texas May Repeal Pension Laws. Austin, Tex., Aug. 16.-The last legislature passed a law putting into effect an amendment to the State constitution prociding for the pensioning of indigent Confederate veterans. The appropriations are \$100,000 for the first year and \$250,000 for the second year. The boards of county commissioners of every county in the State met yesterday to pass upon applications for pensions. The total number of applications aiready submitted is over 12,000, and it is expected that the number will not be less than 20,000. It is aiready evident that owing to the large number of pensioners the per capita will be very small, and no material benefit to the party receiving it. There is already talk of repealing the law.
